Oral Health Program Manager

October 26, 2020

It IS Safe to Return to the Dentist!

Maintain Good Oral Health During The COVID-19 Pandemic

Dentists are ready to see YOU!

HERE IS HOW YOUR DENTIST IS HELPING TO KEEP YOU SAFE:

Screening questions related to COVID-19

Asking you and the staff to wear a mask

Temperature checks

Hand Sanitizer upon arrival

Practice physical distancing

No magazines in the waiting area

EARLY DETECTION CAN PREVENT LONG-TERM DENTAL PROBLEMS

- HALT GUM DISEASE
- AVOID TOOTHACHES
- PREVENT TOOTH LOSS
- PREVENT COSTLY DENTAL EMERGENCIES
- TREAT TOOTH DECAY

SCHEDULE YOUR APPOINTMENT TODAY!!

YOLO COUNTY ORAL HEALTH STRATEGIC PLAN: July 2017- June 2022

May 8, 2017

1. Raise Community Awareness About Oral Health

- 1.A. Conduct Media/PSA Campaign to Elevate Public Awareness and Value of Oral Health
- 1.B. Educate Elected Officials/Community Leaders about Oral Health Policy Options and Considerations
- 1.C. Monitor and Report on Oral Health Outcomes and Access for Low-Income Residents

2. Increase Screening and Prevention Services for Children

- 2.A) Expand Existing Screening and Prevention Programs for Low-Income Children
- 2.B) Develop New School/Child Care Partnerships that Expand Screening/Prevention Services and Parent/Caregiver Education

3. Facilitate Local Policies to Promote Oral Health

- 3.A) Provide Information, Expertise and Support to County and City-Based Oral Health Policy Initiatives
- 3.B) Mobilize Dental/Medical Providers and Community Members as Champions for Local Oral Health Policy Initiatives

4. Promote Expanded Dental Access for Low-Income Children/Adults

- 4.A) Facilitate Medical-Dental Provider Partnership/Collaboration to Promote Oral Health Integration
- 4.B) Highlight and Promote Innovative Programs and Practices that Expand Dental Access

✓ The percent of Yolo Denti-Cal child beneficiaries (1-year) that receive **any dental service** by 2022 is at or above the California average

✓ 6,000 children receive oral health screenings annually by 2022

✓ Decrease in percent of screened children with class II/III decay between 2016 and 2022

✓ 2 new local oral health policies passed by 2022

✓ Decrease in rate of ED Visits with Dental Diagnosis between 2016 and 2022 (adults and children)

Increase Access to Oral Health Care

- ▶ Promoting awareness about MediCal dental services with community partners, schools, coalitions, and care organizations
